JOB POSTING

Job Details

<i>Title</i>	Substitute School Nurse (Districtwide) (SY20-21)
<i>Posting ID</i>	256
<i>Description</i>	Current School Year 20-21

About Chelsea Public Schools:

The Chelsea Public Schools (CPS) is a gateway school system that welcomes and educates all students and families. In CPS, we believe all children are capable of achieving their personal best by ensuring a safe and supportive environment for school and classroom environments. The school system educates over 6,300 students in 10 schools, including a pre-K-1st grade school, 4 elementary schools, 3 middle schools, and 2 high schools. CPS is a culturally responsive school district. We believe that students learn best when they are engaged in meaningful relationships that fosters and promotes high expectations and risk taking. We are a district of multilingual students where languages are an asset to student development and growth. More information about CPS can be found on our website at www.chelseaschools.com/cps.

Job Responsibilities:

- Provides first aid to injured children and staff and everyday care of acutely ill children and staff
- Keeps daily records of students and staff seen in health room
- Maintains comprehensive current health records on each student
- Manages children with communicable diseases
- Responds to frequently encountered health issues, providing counseling and crisis intervention when required
- Provides medically prescribed interventions
- Administers over the counter medications per school physician certified standing orders to students and staff
- Collaborates with the parent/guardian and student to develop and implement an individualized health care plan for student
- Develops a nursing diagnosis and care plan with specific goals and interventions
- Responds to child neglect or abuse issues (as required by Massachusetts statute)
- Performs state mandated screening programs and provides appropriate referrals
- Assists Board of Health with immunization programs in the schools and community clinics for disease prevention
- Prepares regular written reports for school officials and MDPH and other agencies
- Carries out communicable disease prevention and infection control based on current guidelines for universal precautions, prevention of blood borne pathogens exposure and hazardous medical waste disposal
- Establishes a process to identify students at risk for physical and psychosocial problems communicates health needs to other school personnel as appropriate and establishes a referral system using both internal and community resources.
- Participates as a team member; with parental consent when indicated, shares information with other team members about children with special health care problems which affect learning and growth
- Acts as an advocate for the student and family when appropriate
- Attends Special Education Team meetings when needed
- Identifies health-related needs for inclusion in the individual education plan
- Serves as a member of pertinent committees and teams
- Teaches the basic principles of health promotion and disease prevention to students and staff in community
- Assumes responsibilities for in-service programs for school personnel for universal precautions, first aid, emergency care procedures
- Acts as a resource in health education to school personnel, students and families

- Understands and applies core public health functions of assessment, policy development, and assurance
- Uses community resources for referral of students with unmet health needs, including the need for a primary care provider
- Participates in the planning and implementation of new services
- Interprets school health service needs and the role of the school nurse to the school and community
- Assumes responsibility for own continuing education
- Maintains certification in cardiopulmonary resuscitation
- Perform other related duties that may be assigned by the Manager of Health Services or building principal

Qualifications Required:

- Ability to organize time, work independently and accomplish tasks despite frequent interruptions; maintain detailed statistics and records as required by the assignment; communicate effectively with the public, co-workers, officials and with those at other agencies
- Valid current license to practice as a Registered Nurse in the State of Massachusetts
- Licensed or eligible for licensure as a school nurse through the Massachusetts Department of Education
- Bachelor or Master’s degree in nursing or Masters Degree in Education from an accredited nursing program
- Certification in CPR
